

27 February 2008

Statement: Dr Roman Hasil

The Medical Board of Queensland has decided to suspend Dr Roman Hasil's registration pending full investigation.

Chair of the Medical Board Dr Mary Cohn said the New Zealand Health and Disability Commissioner's report on Dr Hasil raised serious doubts about his practices.

"The Board met last night to consider the report and we decided it provided sufficient evidence to suspend his registration immediately," Dr Cohn said.

"We are duty bound to investigate any suggestion of patient safety concerns.

"The Board will continue to work closely with Queensland Health to examine Dr Hasil's performance during locum placements at the Rockhampton and Redcliffe hospitals."

Once the Medical Board has informed Dr Hasil of the decision his registration status will be updated on the public register at <http://www.medicalboard.qld.gov.au/publicAccess/>
